Canadian Bioinformatics Workshop Series

Awards available for CBW workshops

Informatics and Statistics for Metabolomics

Date

May 26-27, 2016 - Downtown Toronto, Ontario

Faculty

David Wishart and Jeff Xia

Course Objectives

The workshop will cover many topics ranging from understanding metabolomics technologies, data collection and analysis, using pathway databases, performing pathway analysis, conducting univariate and multivariate statistics, working with metabolomic databases and exploring chemical databases. Participants will be given various data sets and short assignments to assist with the learning process.
